Famine-Genocide in Ukraine

Holodomor 1932-1933

The Famine-Genocide in Ukraine, the Holodomor, was politically motivated. Current research indicates that millions perished.

The Holodomor meets the United Nations criteria for Genocide and has been recognized as such by many governments internationally as well as the Government of Canada and the provinces of Ontario, Alberta, Manitoba, Saskatchewan and Quebec.

Holodomor Memorial Day Announcement

Today people are starving in Somalia. The Ukrainian community in Canada is providing Somali famine relief. The Ukrainian-Canadian community knows first hand the devastating effects of starvation by famine having lost millions of Ukrainians to the *Holodomor* during which Stalin tried to eradicate the Ukrainian people.

Friday, November 25th, 2011 (the 4th Friday in November) is **Holodomor Memorial Day**, to remember the millions who were deliberately starved to death in 1932-1933 in Ukraine. "*Holodomor*" – means "inflicting death by starvation."

From 1932 to 1933, while Ukraine was a republic of the Soviet Union, the Communist regime, led by dictator Joseph Stalin, forcibly seized the Ukrainian people's land, and all grain that they produced. All other food was confiscated in many areas of Ukraine by the Secret Police. Millions starved as the Soviets exported wheat the Ukrainians produced. Anyone found in possession of grain or any other food was prosecuted or executed.

Few accounts of the Famine-Genocide ever reached the West; those that did were ridiculed as 'anti-Soviet propaganda' by supporters of the Communist regime who denied the existence of any Famine-Genocide.

The TDSB, the Government of Canada, the Government of Ontario and the Ukrainian Canadian community have acknowledged the *Holodomor* as a genocide, and remember the millions of people who died in the *Holodomor*, many of whom have descendants living in Canada.
